and be creative!*

Fun with Music

Join Gwyn

Fridays at 10:00 AM

Come sing, dance, and have fun!

SCIENCE & STORIES

Introducing Children to the World of S.T.E.M

Twice a month, our friend Krissy, from the Children's Museum in Easton, will post videos focused on

STEM (Science – Technology – Engineering – Math)

These fun and educational videos will be posted bimonthly on the [CFCE Facebook page](#).

Materials (simple household items) needed will be posted in advance.

The recordings will guide you and your child through experiments and a reading of a related children's story which can be viewed at your convenience.

Once a month, **Let's Make Friends** will focus on STEM in their Wednesday playgroup.
