COMMITMENT TO ACCOMPLISHMENT

The School Committee accepts ultimate responsibility for all facets of school operations. Because it is accountable to residents of the district, the School Committee will maintain a program of accountability consisting of the following elements:

- Clear statements of expectations and purpose as these relate to operations, programs, departments, and Positions.

- Provisions for the staff, resources, and support necessary to achieve stated expectations and purposes, subject to financial support by residents of the district.

- Evaluation of operations and instructional and staff development programs to determine how well expectations and purposes are being met.

- Determine specific performance objectives to enable individuals to direct their own efforts to the goals and objectives of the school system.

- Evaluation of the efforts of employees in line with stated objectives, with the first purpose of evaluation being to help each individual make a maximum contribution to the goals of the school system.

- Every effort will be made by the School Committee, Superintendent, and staff to fulfill the responsibilities inherent in the concept of accountability.
