A district is typically assigned a level based on the level of its lowest performing school. Placing schools and districts into levels helps districts know which schools need more support, and helps the state know which districts need the most assistance. More information is available here: http://www.mass.gov/ese/accountability.</p> | <p>Overall progress in narrowing gaps</p> <p>Massachusetts aims to reduce proficiency gaps by half between 2011 and 2017.</p> <p>All students -</p> <p>High needs students -</p> <p>Economically disadvantaged -</p> <p>Students with disabilities -</p> <p>English language learners & former ELLs -</p> |
| <p>District determination of need for special education technical assistance or intervention</p> <div style="background-color: yellow; text-align: center; padding: 5px; margin: 10px 0;">Needs Technical Assistance (NTA)</div> <p>Districts, including single school districts, are assigned a determination of need for special education technical assistance or intervention. These determinations, which are typically based on the district's accountability and assistance level, range from <i>Meets Requirements - Provisional</i> (districts with insufficient data) to <i>Needs Substantial Intervention</i> (Level 5 districts). The determination, which also incorporates compliance measures, helps to identify whether the Department will require districts to take additional actions to support improved outcomes for all children, especially students with disabilities.</p> | |
